PROFESSIONAL SUMMARY

Business Information Systems master's student who builds dashboards, data pipelines and automation that turn business data into decisions. Hands-on with SQL, Excel, Power BI, Tableau, JavaScript/Node.js and Python, and certified as a Microsoft Certified: AI Business Professional. Combines this with a business-analysis and stakeholder-engagement background across insurance, retail, marketing and e-commerce, plus client consulting on market entry (Syft Technologies) and AI-era SaaS pricing (Fuel50). Two-time first-place winner in student trading competitions, with a track record of delivering clear, client-facing recommendations and reports.

EDUCATION & QUALIFICATIONS

Master of Business Information Systems — University of Canterbury, Christchurch *Jul 2025 – Nov 2026 (Expected)*

- **UC Global Leadership Programme** (Apr–Oct 2026, 6 months) — collaborated with diverse teams and local organisations; supported Christchurch City Council events; developed intercultural communication and leadership skills, including helping international students settle into NZ
- **UC Global Impact Industry Project** (Jul–Oct 2026, 4 months) — worked with Syft Technologies, Christchurch, on international market research, competitor analysis, customer insights and market-entry recommendations; delivered professional reports and final presentations
- **UC Virtual Internship, Client: Fuel50** (3 weeks, Jun–Jul 2026) — consultant and team leader analysing SaaS and agent-based pricing models for an AI-driven HR-tech platform; benchmarked competitors, assessed commercial risk and presented a recommended pricing strategy to the client

Master's Degree in Management — BINUS University, Jakarta — GPA 3.7/4.0

Aug 2018 – Mar 2020

TECHNICAL SKILLS & TOOLS

Data & Analytics: SQL, Excel (modelling, validation & reporting), Power BI, Tableau, Python

Development: JavaScript, Node.js, React, Cloudflare Workers, GitHub Actions, REST APIs

Data Management: data validation & cleansing, data integration and migration, geocoding addresses to map coordinates, user administration, system documentation

Business Platforms: Microsoft 365, ServiceNow, Katipolt, POS/inventory systems, e-commerce marketplace platforms

AI & Automation: AI-assisted workflow design, Microsoft 365 Copilot, Gemini API, prompt-based tool design, AI Studio

Research & Finance: market & competitor research, financial modelling, risk management, technical analysis

EMPLOYMENT HISTORY

Business Systems Analyst Intern — Cassidy Davies Electrical | Belfast, Christchurch

- Designed and deployed a live operations dashboard (React, Cloudflare Workers) tracking job costs, profit margins and claim progress, replacing manual spreadsheet reporting across the business
- Built a Node.js data pipeline that imports job data from the Katipolt platform into internal reporting, cutting a ~2-day manual export process to 30–60 minutes
- Wrote Node.js scripts (ExcelJS/SheetJS) to validate, update and roll over the operations spreadsheet each month, with automated tests to protect existing figures and hand-corrected data
- Prototyped CDE Field, an installable mobile web app for electricians to log on-site task progress into the office dashboard; geocoded job addresses into map coordinates so every job appears on a map
- Administered user logins and access, and migrated the system and all its data onto company-owned infrastructure with a documented checklist
- Added CSV exports for deeper analysis in Tableau and an AI summary of completed jobs for management
- Wrote handover documentation, operational guides and an automation roadmap, and worked directly with the owners to scope requirements, demo iterations and refine deliverables

Tuakana, Evaluation and Student Insight — Te Whare Wānanga o Waitaha | University of Canterbury

- Mentored and supported international students through academic, social and cultural transition
- Organised and facilitated student engagement events to promote inclusion and community connection
- Collaborated with university staff and student-support teams to deliver student-focused initiatives

Pharmacy Assistant — Chemist Warehouse | Northwood, Christchurch

2025 – Present

- Managed stock receiving, shelf replenishment and inventory checks, ensuring products were correctly recorded in the system
- Used POS and store systems daily for data entry, stock updates and transactions; checked that pricing and promotional labels matched system data, especially during busy promotional periods
- Resolved product and pricing questions for customers, requiring attention to detail and clear communication

Assistant Manager — CV. Multi Sarana | Bandung, Indonesia

01/2022 – 07/2025

- Managed the company's online marketplace platforms, including product listings, descriptions and pricing data
- Worked with overseas suppliers (China, Korea, Germany) to ensure product details and orders were accurate
- Ran purchasing and stock checks, keeping online and offline inventory records consistent

- Insurance Staff → Business Partner** — PT. Allianz Life Indonesia Tbk | Bandung, Indonesia 02/2020 – 01/2022
- Managed customer data, policy information and documentation with a strong focus on accuracy
 - Analysed client needs and performance results to improve sales outcomes
 - Promoted to Business Partner leading 2 direct staff; recognised with performance awards (trip to Shenzhen, China)
- Marketing Officer** — PT. Chitose International Tbk | Cimahi, Indonesia 05/2017 – 02/2020
- Coordinated government-related events across multiple provinces and supported B2G sales, consistently meeting targets
 - Helped government clients use e-catalogue procurement systems, explaining product details and processes clearly

PERSONAL & HOBBY PROJECTS

- NZ Road Safety Analytics & The Unspoken Shift** — Tableau Public 2026
- Cleaned and shaped public NZ data to normalise serious-injury counts by population, allowing a fair per-capita comparison of road-safety trends across 2000–2024; published as interactive dashboards on Tableau Public and kwanfelix.me
 - Built a second data-storytelling dashboard on how close human connections moved into the digital world, each framed around one clear question rather than a wall of metrics
- diam.dan.percaya** — automated daily devotional Instagram account (hobby) 2026 – Present
- Built a Python pipeline that turns a week of plain-text content into consistently styled posts and Reels; a scheduled GitHub Actions job publishes them through the Instagram API, with a publish log that prevents duplicate posts
 - Maintains a web archive of 365+ posts and two small browser games built around Bible verses

ACHIEVEMENTS & CERTIFICATIONS

- Microsoft Certified: AI Business Professional** — Microsoft (issued September 2026)
- Oracle Data Platform 2025 Certified Foundations Associate** — Oracle (issued August 2025)
- Investment Foundations Certificate** — CFA Institute (issued February 2026)
- Finance Accelerator, AmplifyME (Oct 2025); McKinsey Forward Program (Jun 2026); First Aid Level 1, Hato Hone St John
- 1st Place**, UC Trading Competition 2025 (UC Business & Investment Society with CMC Markets) — grew a \$100,000 simulated portfolio to \$680,000 through research, risk management and diversification
- 1st Place**, Tiger Brokers New Zealand Tertiary Student Sim-Trading Competition, with NZCSA (Sep–Oct 2025)
- Deloitte x ServiceNow UC Student Appathon** — prototyped a culturally grounded online-safety app for rangatahi on the ServiceNow platform, from a live brief by Te Rūnanga o Ngāi Tahu

PUBLICATION

Kwan, F. P., Hermawan, L. R., & Hafizhi, N. (2019). E-HRM: Pain or Gain for HRM Effectiveness. *Jurnal TAM (Technology Acceptance Model)*, 10(1), 22–32. Peer-reviewed study of E-HRM's impact on HRM effectiveness using the UTAUT framework and SEM-PLS.

VOLUNTEER EXPERIENCE

- Multimedia Team Leader** — IFGF Christchurch Jan 2026 – Present
- Lead the multimedia team for services and events: delegating tasks, scheduling volunteers, training new members and maintaining the equipment inventory
 - Helped design and build an AI-assisted web app that structures and automates the volunteer roster (roster.ifgfchristchurch.org)
- Team Leader, Pre-event Promotion** — Passport to Ōtautahi 2026, Asian Family Services 2026
- Led pre-event promotion for a multicultural wellbeing festival attended by almost 600 people
- Branch Out, Mairehau School** — Student Volunteer Army New Zealand Jul 2025 – Present
- Event Crew** — Super Round Rugby, Crusaders vs Waratahs Player Signing Event 23 Apr 2026
